```

```

```javascript
document.querySelectorAll('.shadow-md').forEach(div => {
  const rating = Number(div.querySelector('.text-green-600')?.textContent?.trim().split(' ')[0]);
  if (rating) {
    div.style.boxShadow = `0 4px 6px ${rating > 70 ? 'rgba(72, 187, 120, 0.6)' : 'rgba(224, 58, 58, 0.6)}`;
  }
});
```

```

This HTML snippet creates a colorful and professional layout using Tailwind CSS with JavaScript to dynamically adjust design elements based on content, such as applying custom shadow colors based on ratings. The analysis gives a comprehensive yet concise overview while critically assessing key areas of the Fetch.ai project.
