

```
{
  "overallRating": 85,
  "team": "The team behind NEAR Protocol consists of experienced and credible members with a proven track record in the crypto and blockchain industry.",
  "whitepaper": "The whitepaper is comprehensive and illustrates the concepts and operation of the NEAR Protocol clearly. However, some aspects are quite technical, which might put off non-technical users.",
  "tokenomics": "With a circulating supply of 1,217,906,154 and a total supply of 1,225,067,293, the token has a reasonable supply that makes it viable for short and long-term holding. However, transparency regarding token allocation and vesting schedule could be improved.",
  "community": "NEAR Protocol boasts a substantial and active community. The community sentiment appears to be largely positive, signaling strong support towards the project's future.",
  "roadmap": "The roadmap of NEAR Protocol is clear and feasible. It shows a systematic approach towards their goals and objectives, indicating a high level of ambition and direction for the project.",
  "strengths": ["Robust technology", "Competent team", "Active community", "Clear roadmap"],
  "weaknesses": ["Whitepaper can be overly technical", "Lack of transparency in tokenomics"],
  "recommendations": "Make the whitepaper more accessible for non-technical users to broaden the appeal of the project. Also, enhance transparency on tokenomics to improve investor trust."
