

```
{"regulatoryCompliance": "The regulatory compliance of NEAR Protocol is not stated in the given data. However, as a blockchain project, NEAR Protocol should uphold and adhere to necessary regulations like GDPR/CCPA to ensure user's privacy. The management must make sure they comply with all the laws on digital asset control and monetary transactions.", "securityMeasures": "There is no detailed information available about the security measures taken by NEAR Protocol project. The information about the protocols, audits, and breach history is not provided. However, a project like NEAR Protocol, which ranks 25 by market cap and operates within the crypto industry, should have robust security measures in place to prevent unauthorized access or infiltration, including regular audits and strong encryption protocols."}
